

## BSU Bokod and Buguias have new executive deans

Newly designated officials of BSU Bokod (bottom) and BSU Buguias (top) taking their oath of office administered by President Felipe Salaing Comila. //ELUMASOC

Dr. Florendo P. Comila was designated as the new Executive Dean of BSU Buguias while Dr. Samuel S. Poliden was designated as the new Executive Dean of BSU Bokod.

Dr. Comila took his Oath of Office during the Turnover and Oath-taking Ceremonies held on August 4, 2021, at the BSU Buguias Gymnasium. He succeeded Prof. Elizabeth M. Bay-an. Before handing over her responsibilities, Prof. Bay-an expressed her gratitude to the BSU Buguias faculty and staff for their cooperation and contributions during her term as Executive Dean.

In his acceptance speech, Prof. Comila pledged to continue the best efforts of Prof. Bay-an.

“The trust and confidence bestowed upon me will be my engine in traversing the intergenerational highways towards meeting the realization of the Benguet State University **BSU Bokod and Buguias...continued on page 7**

## BSU signs MOA with The International Institute of Knowledge Management, Sri Lanka

(L) Director Isanka P. Gamage and International Officer Dinesh Austin Joseph from The International Institute of Knowledge Management (TIIKM), Sri Lanka and (R) BSU officials pose for posterity on July 21, 2021 after signing the MOA to organize the International Conference on the Future of Education.//

A Memorandum of Agreement (MOA) was signed between BSU and The International Institute of Knowledge Management (TIIKM) on July 21, 2021. The MOA brings the BSU- College of Teacher Education and the TIIKM together to organize the International Conference on the Future of Education.

BSU President Felipe Salaing Comila and TIIKM Co-Founder and Managing Director Isanka P. Gamage signed the MOA. BSU- VPRE Romeo A Gomez Jr., BSU- VPAA Imelda O. Degas, and TIIKM International Officer Dinesh Austin Joseph witnessed the said activity.

Marcelina L. Bolona, ELS department chairperson, began the program with an invocation. Desiree F. Botengan, the CTE IRO focal person, gave the opening remarks. Then, TIIKM International Officer Dinesh Austin Joseph gave a presentation about the organization. Divina M. Yango, CTE dean, gave an overview of the engagement and introduced the BSU officials. Isanka P. Gamage and President Felipe Salaing Comila both expressed their views on the engagement. The program came to a close with IRO Director Maria Luz D. Fang-asan's final comments.

The International Institute of Knowledge Management (TIIKM) is a non-profit organization dedicated to facilitating knowledge transfer by building research careers, enabling business decision-making, and advocating quality policy decisions through academic conferences. //IRO

## BSU VISION, MISSION AND DEVELOPMENT GOALS

### Vision

BSU as an International Smart University engendering graduates to walk the intergenerational highways

### Mission

BSU cares to: Challenge Innovation, Advance Technology and Facilities, Revitalize Administration, Engender Partnership, and Serve Intergenerational Role

### Development Goals

**Goal 1:** Challenge Innovation in the four-fold functions of the University

**Objective 1. (Instruction)** To provide quality education responsive to the needs of time

**Objective 2. (Research)** To enhance research productivity contributing to sustainable development

**Objective 3. (Extension)** To disseminate relevant research outputs and other scholarly activities consistent with BSU's mandated programs

**Objective 4. (Production)** To promote sustainable and appropriate resource generation strategies for the implementation of development plans

**Objective 5. (Administration)** To advocate for resource management and effective energy efficiency in addressing the demands of climate change

**Goal 2:** Advance Technology and Facility by shaping the University become responsive to modern needs

**Objective 1. (Instruction)** To use information and communication technology learning resources to sustain and enhance quality of alternative teaching - learning continuity endeavors

**Objective 2. (Research & Extension)** To upgrade facilities and enable researchers/extensionists to conduct activities using specialized facilities

**Objective 3. (Production)** To acquire and upgrade state-of-the art facilities in the projects

**Objective 4. (Administration)** To upgrade facilities and establish modern physical infrastructures

**Goal 3:** Revitalize Administration by harmonizing performance monitoring, information, and reporting systems

**Objective 1.** To elevate the BSU PRIME-HRM to a level of excellence for good governance and efficient public service

**Objective 2.** To reinforce transparency, integrity, and objectivity in the delivery of service

**Objective 3.** To regenerate instruction, research, extension, production, linkages, governance, management, and policies

**Objective 4.** To streamline operations to be efficient, effective, and responsive to challenges and changes

**Goal 4:** Engender Partnership by proactively strengthening linkages

**Objective 1. (Instruction)** To establish academic partnerships with local, regional, national, and international institutions providing educational opportunities for faculty, staff, and students

**Objective 2. (Research)** To increase and sustain university relations with academe, industries, GOs, NGOs, and LGUs for research funding

**Objective 3. (Extension)** To increase and sustain partnership with academe, LGUs, NGOs, industries, and others

**Objective 4. (Production)** To comply with existing laws, policies and other requirements

**Goal 5:** Serve Intergenerational Role by revitalizing the Spiritual, Physical, Economical, Cultural, Intellectual, Emotional, and Social (S.P.E.C.I.E.S.) state

**Objective 1.** To offer programs that embody social, cultural, economical and developmental needs both for local and global markets

**Objective 2.** To champion local culture and languages in the University context, research, extension, and academic programs

**Objective 3.** To document best practices of the University

AdCo Action No. 03, s. 2021

## BSU QUALITY POLICY

Benguet State University is continuously committed to improve its Quality Management System, satisfy requirements of relevant interested parties and provide excellent service for quality education and innovative research aligned with sustainable development and client satisfaction.

BOR Res. #2847 S.2016

## ISRD, CAS advocate International Day of the World's Indigenous People through a Webinar

The Institute of Social Research and Development (ISRD) led by its Director, Dr. Gigy G. Banes and the College of Arts and Sciences- Social Science Department held a webinar titled, "International Webinar on Indigenous Knowledge Systems and Wellbeing" on August 23, 2021. The webinar is in celebration of the International Day of the World's Indigenous Peoples. This was in partnership with the *Foro Internacional De Mu Jeres Indigenas* and *Hapiyoh Mi Culture and Arts*.

There were six resource speakers who delivered their presentations through Zoom. There were participants who attended face-to-face at the Everlasting Hall of the Research and Extension Building while others attended via Zoom and Facebook Live.

Ms. Grancine M.S.N. Naputi, the Program Manager of Guam State Clearing House, Office of the Lieutenant Governor of Guam, was the first speaker. Her presentation was titled, "Decolonizing Sexuality: Chamoru Epistemology of Liberatory Praxis." She discussed that sexuality is not something to be afraid of nor should it be considered as taboo. She eventually related it to sexual reproductive health which needs a positive and respectful approach to sexuality and culture. She shared that sex education was not part of the curriculum in Guam, leading to

(L-R) Ms. Matyline Camfil of the VPRE, Dr. Ruth S. Batani of the Office of Research Services, ISRD Director, Gigi Banes hand a Certificate of Appreciation to Mr. Roland Ngalob, one of the speakers during the International Webinar on Indigenous Knowledge Systems and Wellbeing on August 23, 2021.

different sexual behaviors.

According to Ms. Naputi, the integration of sex education into the curriculum should be culture-based to counter the existing foreign sexual script. She emphasized that sex education must be contextualized and not imposed by colonizers.

The second speaker was Mr. Roland Ngalob from Besao National High School, Mountain Province. He talked about "*Inayan*: Its Social Meaning and Transformations in Changing Socio-Cultural Context of Agawa, Besao, Mountain Province." He said *Inayan* forbids evil deeds and explained that it encompasses areas of the unseen, nature, resource management and people. Mr. Ngalob further discussed that *Inayan* is used as an authoritative

guide, a warning or signal, a call to obey, and a description of good social actions. He elaborated the contributory factors to the changing views on *Inayan* caused by education, religion, migration, and economics. Mr. Ngalob concluded that the Agawa community used *Inayan* as environmental protection against development projects to preserve their traditions and cultural identity.

Ms. Chelsea Leona L. Taguba, of the University of the Cordilleras Baguio City, was the next speaker who talked about "*Ungot ay Chinawat isnan Laf: Ensup-oks and the Gift of Healing*." She explained that sup-ok is a traditional healing practice in Samoki, Bontoc, Mt. Province. The healing is done

**Biodiversity Research Center soon to rise at BSU Bokod.** BSU officials headed by President Felipe Salaing Comila led the groundbreaking ceremony on August 17, 2021 that will commence the construction of the Biodiversity Research Center at the BSU Bokod campus. The Biodiversity Research Center aims to provide a facility for research in the promotion of biodiversity conservation as part of the research mandate of the University, as well as improve higher education research to promote economic productivity and innovation. The center will include a Biodiversity Information Center, facilities for recreational services, and a building for a Cordillera Heritage Center. The expected date of completion of the center is on April 2022. //MHDelRosario

**Paggunita sa Buwan Ng Wika Pinangunahan ng CAS-Department of Humanities.** Ginunita ng Unibersidad ang Buwan ng Wika sa pangunguna ng Departamento ng Humanidades noong ika-9 ng Agosto, 2021. Isang maikling programa ang isinagawa na may temang, "Filipino at mga katutubong Wika sa Dekolonisasyon ng Pag-iisip ng mga Pilipino." Ito ay naging kasabay ng regular na Flag Ceremony. Si Dr. Dominga S. Tomas, Koordinator ng Sentro ng Wika at Kultura ang naging tagapagsalita sa naturang programa. Ayon sa kanya, tayo ay binigyan ng ganitong pagkakataon upang ipagdiwang at ipadama ang kahalagahan ng ating minanang wika. Binanggit din ni Dr. Tomas na ang pagsisikap ng BSU na isalin ang BSU Hymn at Vision, Mission, and Development Goals (VMGD) sa iba't ibang lokal na wika ay patunay ng pakikiisa sa tema ng Buwan ng Wika. //KJPagada

**BSU students join first online Ayala Young Leaders Congress.** Ronica Raine Babsa-ay, 4th year BS Development Communication student; Sofia Mae Oway, 4th year BS Agriculture; and Shanerisse Tamondong, 4th year BS Nutrition and Dietetics were recognized on August 9, 2021 during the weekly Flag Raising Ceremony for successfully landing on the official list of Ayala Young Leaders Congress 2021. //KJPagada

**HRDO conducts mental health awareness seminar.** The Human Resource Development Office (HRDO) conducted a two-day seminar and workshop on mental health awareness on July 29-30, 2021. The topic for the first day was "Mental Health Review" by Ms. Fay-Ann P. Farangan followed by "Life Coaching Skills" by Ms. Agnes Kryza H. Sito. On the second day, "Self-care Practices" was clearly by Ms. Marcicris P. Lad-ey-Neyney followed by Mr. Raymundo H. Pawid, Jr. who discussed "Mental Health in the Workplace." The activity aimed to encourage and train BSU employees to become life coaches to help themselves and others. HRDO believes that people can achieve a greater sense of fulfillment through progress in their social relationships, careers, and day-to-day lives. //AKCariño

**Environmental Consciousness promoted during Flag-Raising Ceremony.** The College of Arts and Sciences - Department of Biology hosted the August 16, 2021 flag-raising ceremony. Mrs. Joyce N. Paing shared the importance of environmental stewardship and sustainability. She emphasized the responsibilities and proper values of individuals, companies, communities, and government organizations towards attaining a sustainable environment. On the other hand, Dr. Florence V. Poltic reminded BSU employees to stay vigilant during this pandemic. She advised BSU employees to continue wearing face masks and face shields and to get vaccinated. The University Physician also suggested wearing face masks at home as an additional precautionary measure since it was observed that most transmissions happen at home. The flag-raising ceremony ended with a message from the University President, Felipe Salaing Comila. //AKCariño

**BSU Bokod and Buguias now have dormitories.** BSU Buguias (L) now has a two-floor dormitory, half will be the men's dormitory and the other half will be the women's dormitory. The building was blessed and turned over to the University by the contractor on August 11, 2021. The turn-over ceremony started with a Mass officiated by Rev. Jaime P. Dominguez Jr., Rector of the St. Jude Parish at Bangao, Buguias. The Mass was followed by the ribbon-cutting led by VP for Administration and Finance, Atty. Allan C. Sacpa and the newly installed Executive Dean of BSU Buguias, Dr. Florendo P. Comila. District Engineer Alexander C. Castañeda and Contractor Efler Sab-it represented by Mr. Julio Palking handed over the keys of the building to Atty. Sacpa. The Vice-President then endorsed the keys to Dr. Comila. Construction of the building started in September 2020 and was completed in May 2021. BSU Bokod's dormitory (R) which also has two floors and designed to have separate entrances for the men and women tenants, was blessed on August 5, 2021. The 8-room, 32-bed capacity building is still undergoing finishing touches but it will soon be livable. //MHDeIRosario

**GAD spearheads another environmental care activity.** The Gender and Development Office with the Land Reservation Office and Philippine National Police-CAR (PNP-CAR), led by PLTCOL Benson B. Macli-ing, spearheaded a joint environmental care/forest protection activity at Bektey, Puguis, La Trinidad, Benguet on August 13, 2021. The College of Forestry provided 50 Mundo Novo and 50 Red Bourbon coffee seedlings to be planted. Fifty participants were approved to join the activity. The participants were BSU employees, BSU Multi-Purpose Cooperative, and members of PNP-CAR. //PJGadang

# 10 ATBI/IC completers recognized

The 10 completers with BSU President Felipe Salaing Comila, ATBI/IC Director, Dr. Ruth S. Diego and La Trinidad Vice mayor, Hon. Roderick C. Awingan.

Ten graduates of the BSU Agri-based Technology Business Incubator/Innovation Center (ATBI/IC) TBI program were recognized on August 27, 2021. The Recognition Ceremony began with a Thanksgiving Mass officiated by Fr. Felimon William followed by the messages of President Felipe Salaing Comila and La Trinidad Vice Mayor Hon. Roderick C. Awingan representing Mayor Romeo K. Salda.

President Comila thanked the

graduates for trusting the ATBI/IC with their ideas and encouraged them to share with others the knowledge they have learned from the program. On the other hand, Hon. Awingan appreciated the existence of the program to teach people how to survive the difficulties and challenges of life.

Jade M. Palayen, one of the completers, shared that his five-year stint with the ATBI/IC has been life-changing. In his speech, he enumerated

the struggles and doubts he was able to overcome through the help of ATBI/IC. The other nine completers are: Rowena T. Sales, Fernan A. Fianza, Thaddeus G. Bernardo Jr., Jan Michael G. Bernardo, Jocelyn A. Baniaga, Teddy W. Alima, Desiree Faith M. Akiangan, Harissa W. Tubban, and Sinson C. Saron.

The center also celebrated its 10th anniversary with a program, webinars and an exhibit on August 24, 2021. The milestones of the center were reminisced with the messages from PCAARRD Executive Director, Dr. Reynaldo V. Eborá; PCAARRD OED-RD, Dr. Feliciano G. Calora Jr.; PCAARRD OED-ARMSS, Dr. Melvin B. Carlos; PCAARRD TTPD Director, Dir. Noel C. Catibog; and 4th BSU President, Dr. Rogelio D. Colting.

Created through BOR Resolution No. 1936, s. 2010, ATBI/IC is a non-profit, service facility in which a number of "incubatees" operate new and growing businesses under one roof with affordable rents, shared services and equipment, and access to a wide range of professional, technical, and financial programs.//JSTabangcura

## Notes from a young entrepreneur

by Jade M. Palayen

The author is a completer of BSU ATBI/IC's TBI Program. The following is the full text of his speech during the ATBI/IC recognition program on August 27, 2021.

Five years ago, I joined the program with a rather ambitious proposal to build a greenhouse with elevated plots applying hydroponics system in the middle of the strawberry farms. The idea itself was promising since it was adapted from farming technologies abroad.

However, to be able to apply it here in our setting proved to be rather challenging. It wasn't easy and it took a year before that blue greenhouse stood there. Now, five years later, maybe some of you are curious – was it worth it?

Back then I had two goals. First is to introduce and showcase other strawberry farming techniques and help uplift the strawberries of Benguet. Second, in all honesty, is of course to make money. In my mind, I thought I had it all figured out, like how much I could produce and earn. But my journey here would not have been as eventful and colorful without some challenges.

My first challenge I guess was promoting the "idea" itself. It was first met with raised eyebrows and skepticism. Is it necessary? Is it worth the big investment? With every doubt, I knew I had to prove more and I could only do that with good results.

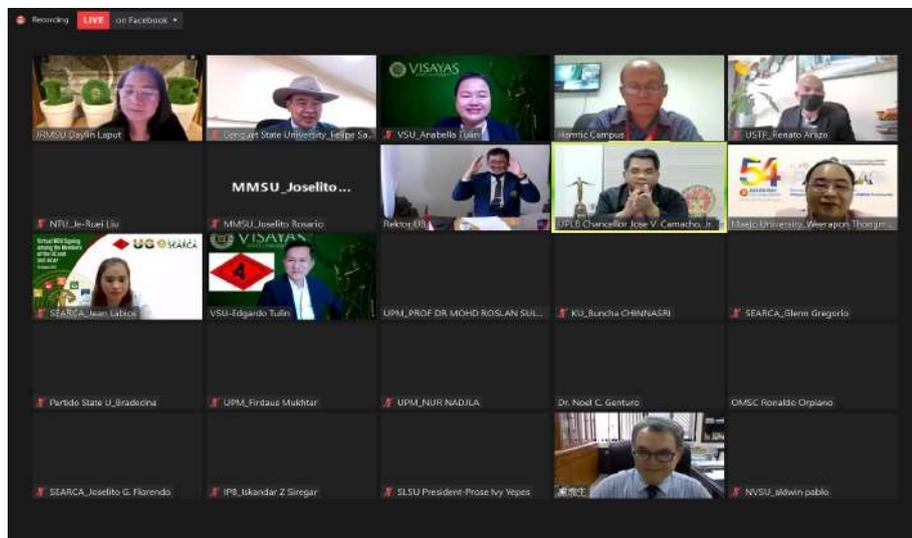

From the very start, I have known that putting up the greenhouse, building all

100 of the elevated plots, fabricating the customized planting beds and setting up the drip irrigation system was a huge task and that was only half of the job. We started in this area overgrown with noxious weeds and it took hours of painstaking manual labor before it was completed.

My biggest challenge was that I have never really grown strawberries before. It was actually my first time and my younger self thought he could learn it all from the books. I want to take this opportunity to thank all my co-incubatees, seniors and mentors, my ATBI family, for teaching me their ways and sharing their knowledge from years of personal experiences. I have learned a lot from each of you and I hope I have shared something with you too. I know I still have a lot more to learn. I have yet to perfect my strawberry production and there are still more and new varieties to try.

Then, there will always be unforeseen circumstances to

# President Comila attends MOU Signing for Institutional Cooperation

August 10, 2021- Dr. Edgardo E. Tulin represented the 74 members of the State Universities and Colleges-Association of Colleges of Agriculture in the Philippines (SUC-ACAP) when he signed the Memorandum of Understanding (MOU) as the President of the organization.

## Notes from a young entrep...from page 6

challenge us. Last 2018, Typhoon Ompong caused what we called “The Great Flood of La Trinidad.” The floodwater was 5-6 ft high in the farms but luckily, the strawberries planted in the elevated plots survived. Our pipes were clogged and half of the roof was gone, but it was easier to replace the plastic than start from scratch. Then year 2020, the unthinkable happened – the world literally stopped and farmers were hit the hardest with this pandemic. With all the restrictions during the community quarantine, we lost our usual market – the tourists, so we had to look for other means. Whether the demand is high or low, farmers can not just abandon their farms but to go the extra mile. Now with the assistance of the government, cooperatives and private entrepreneurs, there are now many ways to market and promote our products online and in various trading centers. These are variables that we cannot control but must always overcome.

Here in ATBI, I learned the three important Is: Innovation, Investment, and Income. We all start with our ideas of innovation, then decide to invest in it, anticipating good income, just like a perfect mathematical equation. Ma’am Ruth always emphasized the importance of ROI (Return of Investment) and I agree 100% because in farming, we invest our time, money, and back-breaking labor. In my case, green house production requires a bigger initial investment than the conventional, however, you will have a more guaranteed and steady returns. It was not my intention to show-off but to show that investing in our structures and technologies will benefit us in the long run. There is no way for us farmers but to go forward, to innovate our techniques, to challenge ourselves constantly to do more and achieve more.

Lastly, I would like to thank BSU ATBI/IC for believing in me and trusting me five years ago, not knowing how it

**Notes from a young entrep...  
continued on page 8**

The MOU was signed in line with the project on Leveling Up Philippine Higher Education Institutions in Agriculture, Fisheries, and Natural Resources (LevelUPHEI AFaR) funded by the Philippine Commission on Higher Education (CHED).

This project, managed by the Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA), intends to build the leadership and research and development capacities of faculty/staff members from the 74 SUC-ACAP member universities and enhance their institutions’ internationalization efforts by linking them with the Southeast Asian University Consortium for Graduate Education in Agriculture and Natural Resources (UC) through participation in training programs, summer schools, forums, cross-visits, and faculty and student mobilities in the UC member universities. //

## BSU Bokod and Buguias ... from page 1

vision and mission. This would be an opportunity but more of a challenge given to one to lead,” said Dr. Comila.

The ceremony was attended by officials from BSU La Trinidad led by President Felipe Salaing Comila, who officiated the oath-taking, and by LGU officials. BSU Buguias employees with new designations also took their oaths along with their new Executive Dean.

The BSU Bokod Turnover and Oath-taking Ceremonies, installing Dr. Samuel S. Poliden as the new Executive Dean, was held on August 5, 2021, at the BSU Bokod Covered Court. Dr. Poliden succeeded Engr. Edgar M. Molintas who served BSU Bokod for nearly ten years. Engr. Molintas turned over his responsibilities by handing a symbolic key to Dr. Poliden.

“It is sheer enthusiasm that I value the honor of working with you here in Bokod Campus. Thank you for the trust and unrelenting administrative and moral support you have gallantly rendered,” said Engr. Molintas. He also recognized the faculty members for never evading responsibilities whether required or as called by duty. He ended his speech by expressing his hopes of a brighter future for BSU Bokod.

Dr. Poliden, in his speech as Executive Dean, recited the first stanza of the poem Desiderata saying that it would serve as a guide in soaring towards greater heights.

“When the president asked me to come back here, there were hesitations but in the spirit of leadership and management, I accepted the challenge with high hopes of revitalizing our campus,” he said. Dr. Poliden is former dean of the College of Arts and Sciences. //

The greenhouse of Mr. Jade Palayen. He uses hydroponics technology to raise various crops. //Photos courtesy of Mr. Jade Palayen

**Notes from a young entrep... from page 7**

would turn out today. I'd like to think that that blue green house is a symbol of innovation that helped spark change and inspire co-farmers in the strawberry fields. With this thought, I hope I have answered the question.

Farming is indeed a continuous

**ISR, CAS advocate International Day...from page 3**

by the *ensup-ok* (healer or shaman) subtly blowing to transfer good or positive energy towards the *masup-okan* (patient). *Ensup-oks* also follow specific guidelines such as non-refusal of patients, no receiving of cash in exchange for the healing, and younger *ensup-oks* not overtaking senior *ensup-oks*. Ms. Taguba highlighted that becoming an *ensup-ok* is not for everyone in the community and should be a descendant of a previous *ensup-ok*. She elaborated that a person becomes an *ensup-ok* by dreaming of receiving an *ungot* (a dried coconut shell) from the *adi kaila* (the souls of the dead).

The next speaker, Ms. Imelda P. Bantas of the Baguio National High School, Baguio City, talked about "Innatang: A Surviving Wake Cultural Practice of the Indigenous Peoples

learning process. I thought putting up the greenhouse was my endgame, but my experiences and training here in ATBI made me realize the vast potentials and opportunities to be explored. Let me conclude this with a quote from Brett Brian, a Canadian novelist, "Farming is a profession of hope." Five years, or even

of Paykek, Kapangan." She defined *innatang*, a Kapangan Kankanaey term, as a voluntary communal help similar to the Tagalog practice *Bayanihan*. Ms. Bantas explained that conveniences afforded by modernity, division of labor (all tasks are assumed voluntarily by the people in the community), rationalization of *Innatang*, Christianization of wakes, and burials are the factors of change. "The psychological and socio-cultural significance of *Innatang* to the people of Paykek, where *Innatang* is a coping mechanism to the bereaved families, is that it reinforces a sense of community relations," she said.

Mr. Art B. Say-*eo* from the Mountain Province Polytechnic College Tadian Campus followed with a similar topic, "Binnadang Narratives: Wake Practices of Kayan Tadian". He discussed the geographic location and origin

ten years from now, I still am a farmer, but I certainly hope for greener fields, better market opportunities and improved farmer status.

Congratulations to all of us my fellow graduates and here's to hoping for good weather, good harvest, and good income! Thank you everyone and may God bless us all!

of Kayan, the meaning of *Binnadang* as the spirit of community, solidarity, and cooperation, the socio-cultural and economic significance, and lastly, the gender roles related to the wake practices and beliefs of *Binnadang*. Mr. Say-*eo* ended his talk by emphasizing how *Binnadang* promotes a harmonious relationship and interaction in the community.

Ms. Rochelle Diver, the Environmental Health Coordinator of the International Indian Treaty Council Minneapolis in Minnesota, USA, did not attend and give her talk online due to inclement weather and connection issues. Nevertheless, her topic "Where Food Grows on Water: The Anishinabeg of North America" will be recorded and soon posted on the ISR Facebook page. //AKCariño
